Drew - Model School (3)

ARLINGTON PUBLIC SCHOOLS
Office of the Superintendent

MEMORANDUM July 29, 1971

TO: Members of the Board

FROM: Robert L. Chisholm

SUBJECT: Establishment of Criteria for Selection of Students for Model School at Drew

The staff believes that students for the model school should be selected by lot from among those who request permission to enroll. It is believed that this will insure a student body which, by voluntarily associating itself with the school, will be supportive of the objectives of the school and will be generally representative of the regular school 1-6 student population (special education students will not be eligible for model school placement).

The quotas to be assigned to each school attendance area is enclosed. The quota would be filled from the applicants in each school by lot with an equal representation from each grade level 1-6.
